Ascendant or Lagna, is the degree of the sign which is rising on the eastern horizon at the time of birth. The Lagna is the most influential and important sign within the natal or lagna chart. This sign will be considered the first house of the horoscope, and the enumeration of the other houses follows in sequence through the rest of the signs of the zodiac. In this way, the Lagna does not only delineate the rising sign, but also all the other houses in the chart.

Kalsarpa Dosh

Rahu and Ketu are two nodes of Moon and they are regarded as full-fledged planets in Vedic Astrology. They are considered as most dreaded planets due to their heavy karmic effects. If all the 7 planets are situated between Rahu and Ketu then Kaal Sarp Yog is formed.

Most of the the Kalasarpa dosha effects are negative, while few can be positive too. Rahu or Ketu gives sudden positive changes which are huge and can happen overnight or within a span of few days.

What is manglik dosha?

In the boy or the girls horoscope when Mars, Sun, Saturn, Rahu Or Ketu is in ascendant, fourth house, seventh house, eighth house or twelfth house then it is called Manglik dosh.

Manglik dosh is considered stronger when Mars is placed in the ascendant than when Mars is conjoined with Moon in ascendant.

If according to the Shastras the Manglik dosh of both the boy and the

girl is getting cancelled then they are guaranteed a happily married life.

On the other hand, if this Manglik dosh is not cancelled then they are likely to face unnecessary problems and hurdles in life.

So one must begin his/her married life after getting their horoscopes thoroughly matched. After getting the Manglik dosh properly cancelled the native shall be bestowed with a peaceful and wealthy life.

What is Sadhesati dosha?

Sadhe Sati refers to the seven-and-a-half year period in which Saturn moves through three signs, the moon sign, one before the moon and the one after it. Sadhe Sati starts when Saturn (Shani) enters the 12th sign from the birth Moon sign and ends when Saturn leaves 2nd sign from the birth Moon sign. Since Saturn approximately takes around two and half years to transit a sign which is called Shani's dhaiya it takes around seven and half year to transit three signs and that is why it is known as Sadhe Sati. Generally Sade-Sati comes thrice in a

horoscope in the life time - first in childhood, second in youth & third in old-age. First Sade-Sati has effect on education & parents. Second Sade-Sati has effect on profession, finance & family. The last one affects health more than anything else.

People with Scorpio rising tend to be secretive, deep, withdrawn, mysterious, regenerate or degenerate, reserved, hard to understand, courageous, willful, persistent, stubborn in thought, creative, self-reliant, self-controlled (except perhaps with the passions), and silent.

According to the spiritual astrologer Isabel Hickey, no unevolved soul is born with Scorpio rising. This is a powerhouse rising sign.

“ It represents the battleground where the higher and lower selves must come to mortal combat. They must be aligned and the lower self eventually must die and give way to and obey the higher self, the God within.

Physical, emotional, mental and spiritual levels are all involved. You appear calm on the surface, but you can be extremely emotional inside. 'Still waters run deep', as they say.

You tend to be the silent type, always wanting to know others' motivations, but never disclosing your own. You love to play the detective or the ferret.

You have to know everything, all the how's and why's. You have great determination and strength, enough to overcome any adversary, even yourself.

“ You need to overcome resentment, possessiveness and jealousy. There may be a fascination, preoccupation, interest and/or ability with the occult, death, sex or healing.

You can be a devil or an angel, the eagle or the stinging scorpion. Mars and Pluto rule Scorpio so Mars and Pluto will be important in your chart.
